The 10th APMAA Conference

Management Accounting in a Global, Dynamic Environment:

Challenges and Opportunities

October 27- October 30, 2014

We are very pleased to have the opportunity to extend a warm welcome to all of you at the 10th Annual Conference of the Asia-Pacific Management Accounting Association (APMAA).

APMAA 2014 Conference is sponsored by Chulalongkorn Business School, Chulalongkorn University, Thailand. The general theme for the 2014 conference is “Management Accounting in a Global, Dynamic Environment: Challenges and Opportunities”. The main goal of APMAA conference is to bring together researchers and practitioners to exchange theories, ideas, techniques and experiences relating to all aspects of management accounting. The 2014 APMAA conference has attracted papers with high quality from a variety of fields in accounting.

To celebrate the 10th anniversary of the Asia-Pacific Management Accounting Association, the organizing committees from Chulalongkorn Business School and APMAA have jointly prepared a special event in the APMAA 2014 Conference. The Goodman School of Business Best Paper Award and the Doctoral Colloquium Scholarships will be announced and granted during the conference dinner on Tuesday October 28. In addition, we hope you could join us on Thursday October 30 to visit the Grand Palace, the Ananta Samakhom Throne Hall, as well as other interesting cultural historic sites in Bangkok.

Finally, we would like to express our sincere appreciation to the devotion of the colleagues of 10th APMAA Conference Organizing Teams in the Department of Accountancy, Chulalongkorn Business School, Chulalongkorn University, in making this conference unique and interesting.

We hope you will enjoy the APMAA2014 program and our hospitality in Bangkok.

THE APMAA 2015 Annual Conference in Indonesia

APMAA 2015 Annual Conference

October 26 – 29, 2015.

Management Accounting for Sustainable Development

Venue: Bali Island, Indonesia

A Brief Message from

Grahita Chandrarin and Sekar Mayangsari

APMAA 2015 will be hosted by several Indonesian universities, with the following main hosts: University of Merdeka Malang, Trisakti University (Jakarta), Udayana University (Bali), Warmadewa University (Bali), Mercubuana University (Jakarta), and Hasanuddin University (Makassar).

The theme of the **APMAA 2015** is “**Management Accounting for Sustainable Development**”. We are proposing this theme since the carbon emission effect moves into focus for business entities. They should be aware of the effect of carbon emissions, the waste from their operational activities, and its relation to global warming. We choose Bali Island because of its beautiful natural scenery. It is famous for its unique culture and customs that cannot be found in other tourist destinations. Bali has been chosen as a place to conduct many international events, such as APEC and the Asian Academic Accounting Association Conference.

We welcome paper submissions in any areas of management accounting. Let us discuss management accounting issues for our better future while enjoying the beauty of Bali Island. To all 2015 APMAA participants from all around the world, we are looking forward to warmly welcoming you on Bali Island, Indonesia, on **October 26th – 29th, 2015**.

About APMAA

1 History

The Asia-Pacific Management Accounting Association (APMAA), established in 2004, is the leading association of scholars and specialists in the field of management and accounting.

The proposal to form the Asian Management Accounting Association was first mooted at the convention of Asian Management Accounting Forum, the first forum, which was held on 3rd and 4th November 2002 in Fukuoka, Japan under the inspiration of Professor Dr. Akira Nishimura. Since then, the founder members from countries of the Asia-Pacific region continue to meet annually to share the same vision of advancing management accounting research and practices with particular reference to the Asia-Pacific region. As a result, when the second convention, Asia-Pacific Management Accounting Forum was held on 24-25 November 2004 in Malaysia, it was unanimously decided that the time had arrived to officially establish the Asia-Pacific Management Accounting Association with two primary objectives. Professor Dr. Akira Nishimura remained the President of APMAA since its inception until 2009. On 1 January 2010, the baton was passed to Professor Dr Susumu Ueno.

The objective of APMAA is to promote the advancement of management accounting theory and practices with particular reference to Asia-Pacific accounting issues. For this purpose, APMAA shall undertake to organize forums and conferences, and the publication of the journal: Asia-Pacific Journal of Management Accounting (APMAJ).

2. Asia-Pacific Management Accounting Journal (APMAJ)

Prof. Dr. Normah Omar, Chief Editor of APMAJ

Asia-Pacific Management Accounting Journal is jointly published by the Asia-Pacific Management Accounting Association (APMAA-which is based in Japan), Accounting Research Institute & Faculty of Accountancy (through AMARC) and University Publication Centre (UPENA), Universiti Teknologi MARA (UiTM). Its initial publication was once a year but effective 2010, the journal issue is increased to twice a year.

APMAJ focuses on showcasing findings related to management accounting theory, concepts and empirical research within the Asia-Pacific region. Every year, APMAA hosts a management accounting forum. One of the main source of papers or articles for this journal comes from such forum.

APMAJ is also linked to other international conferences where some selected papers are also included in APMAJ. Within ARI framework, APMAJ is currently managed by the CIMA-UiTM Asian Management Accounting Research Centre.

Currently APMAJ is indexed in international Ebscohost and Cabell's Directories. ARI has also submitted APMAJ for possible inclusion and to be indexed by SCOPUS.

Chulalongkorn University

Phayathai Road, Patumwan, Bangkok 10330, Thailand

Chulalongkorn University, Thailand’s first institution of higher learning officially came into being in March, 1917. The groundwork and preparation for it in terms of planning and development, however, took place more than a century ago. The worldwide economic, social and political changes in the late nineteenth century contributed to Siam’s decision to adapt itself in order to avoid being colonized by the Western powers (“Siam” became “Thailand” in the year 1939). Thus King Chulalongkorn (Rama V) has royal policy to strengthen and improve government so that the country could successfully resist the tide of colonialism. One of the major parts of the policy, which would later prove to be deep-rooted and highly effective, was to improve the Siamese educational system so as to produce capable personnel to work in both the public and private sectors. As a result, a school was founded in 1871 at the Royal Pages Barrack within the Grand Palace compound.

The development of Chulalongkorn University continued. From 1934 to 1958, the university emphasized improvement of undergraduate education; thus more faculties were established. In 1961 the university set up the Graduate School to be responsible for graduate level education. From 1962 on, the university started to focus on graduate education and began to set up research centers and institutes.
